

Application No.: 09/606,350
Office Action Dated: January 18, 2005

Amendment to the Specification

Due to the cancellation of claims in a previous amendment, Michael L. Dunn is no longer an actual inventor. Consequently, Applicant requests correction of inventorship and, specifically, that Michael L. Dunn be deleted as an inventor leaving Melvin L. Barnes, Jr. as the sole inventor. The fee for this amendment was attached to the response filed on December 27, 2003.
